

Right-clicking (Win) or [Ctrl]-clicking (Mac) anywhere on the Control Room Mixer brings up a contextual menu that allows you to resize the Mixer in the same way as the expansion tabs. Use the options in the Window sub-menu to show the Left and Right Strips along with the Extended and Routing Views.

Control Room Inserts and Meters

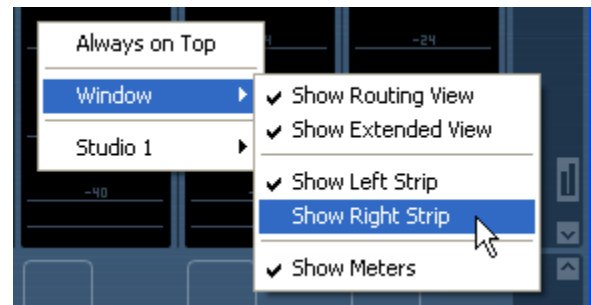

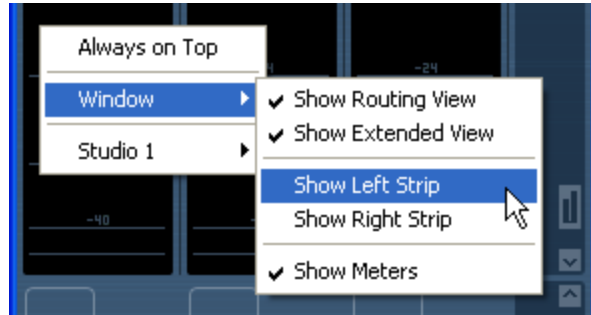

When the Control Room Mixer displays the Extended View, the meters become visible. These meters look and function the same way as the ones in the Project Mixer. Pressing

the small meter icon at the center right side of the mixer will change the view to display inserts. Alternatively, uncheck the Show Meters option from the Mixer's contextual menu. Each Control Room Channel has a set of inserts configured as six pre-fader and two post-fader inserts. External Inputs and Monitor channels only have the six pre-fader inserts. The Control Room Mixer's Extended View displaying channel inserts:

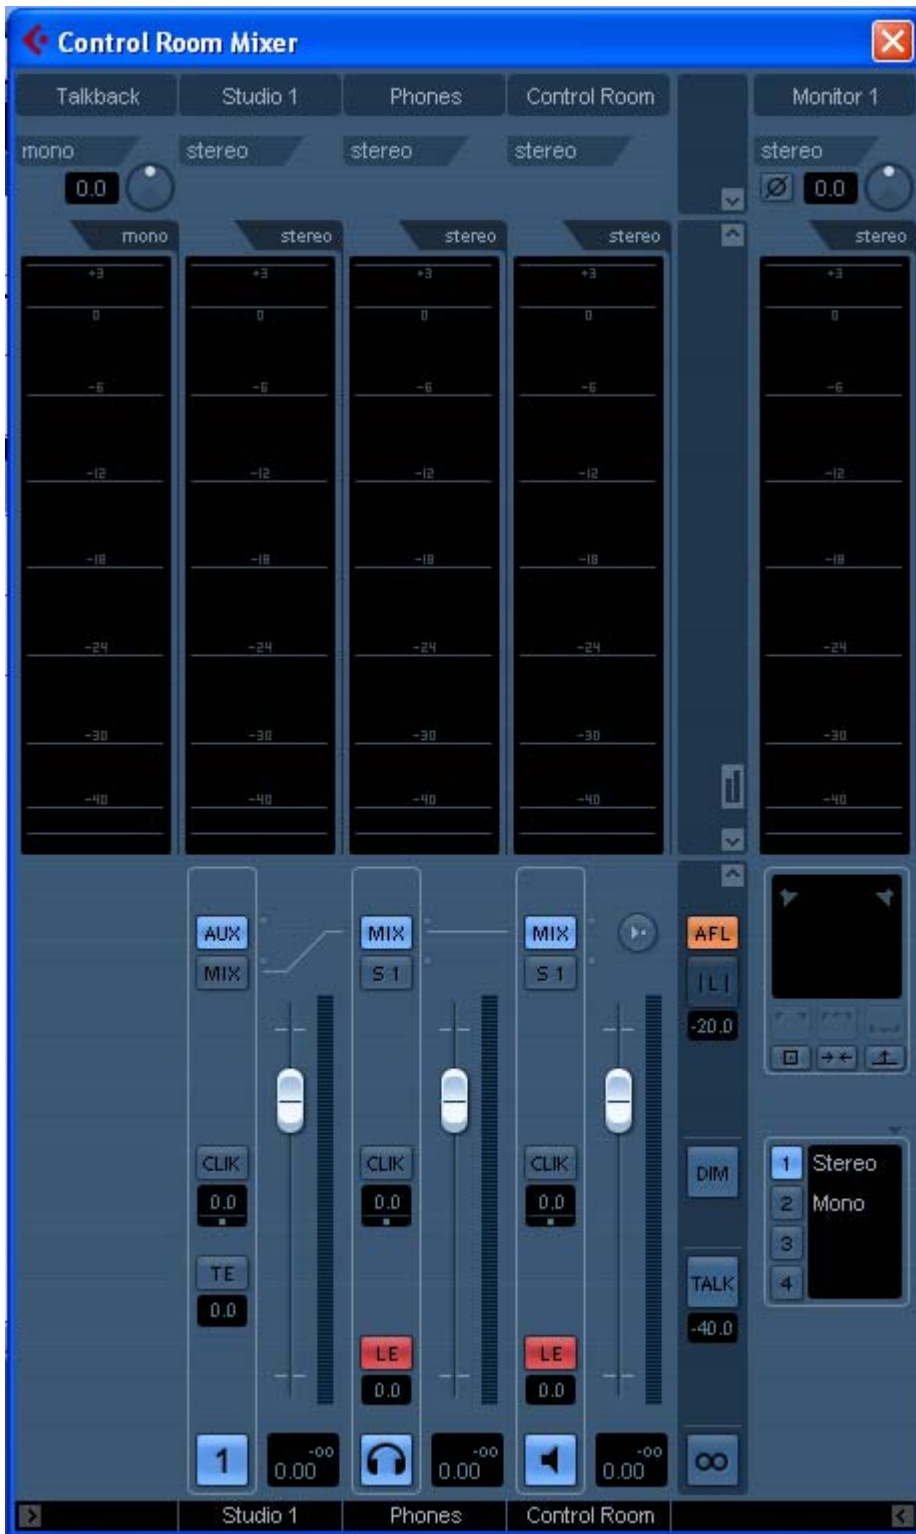

If you do not wish to see full-sized meters but still want some indication of signal activity, activate the option “Signal Presence Indicator” in the Preferences dialog. They will be displayed next to the input selection buttons and will indicate signal presence for all inputs.

To view the Talkback channel strip, right click on the Control Room mixer and select Show Left Strip. To view the Monitor Channel Strips, right click on the Control Room Mixer and select Show Right Strip.

With the left and right channel strips displayed, you can view the entire Control Room Mixer.
