

Cubase 4 Score - Adding a second verse

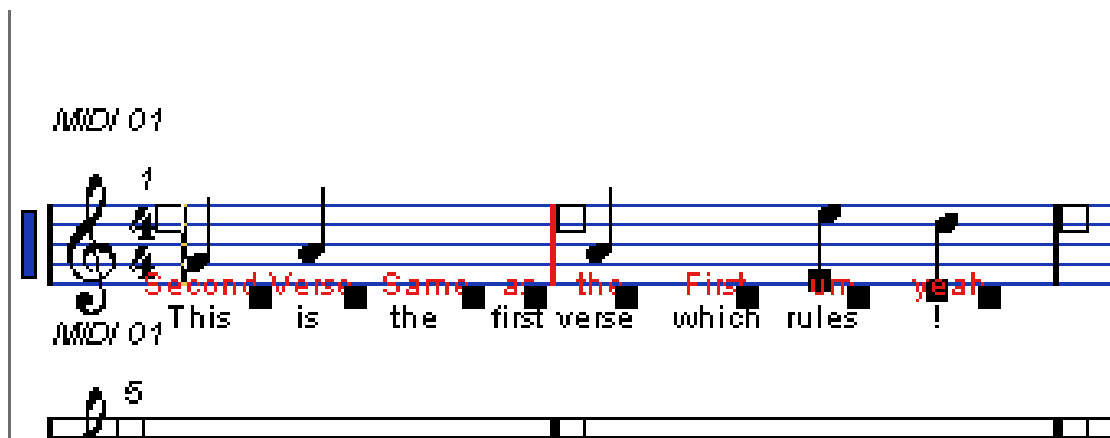

To insert a second line of lyrics, proceed as follows:

1. Enter the new lyrics above or below the existing verse.

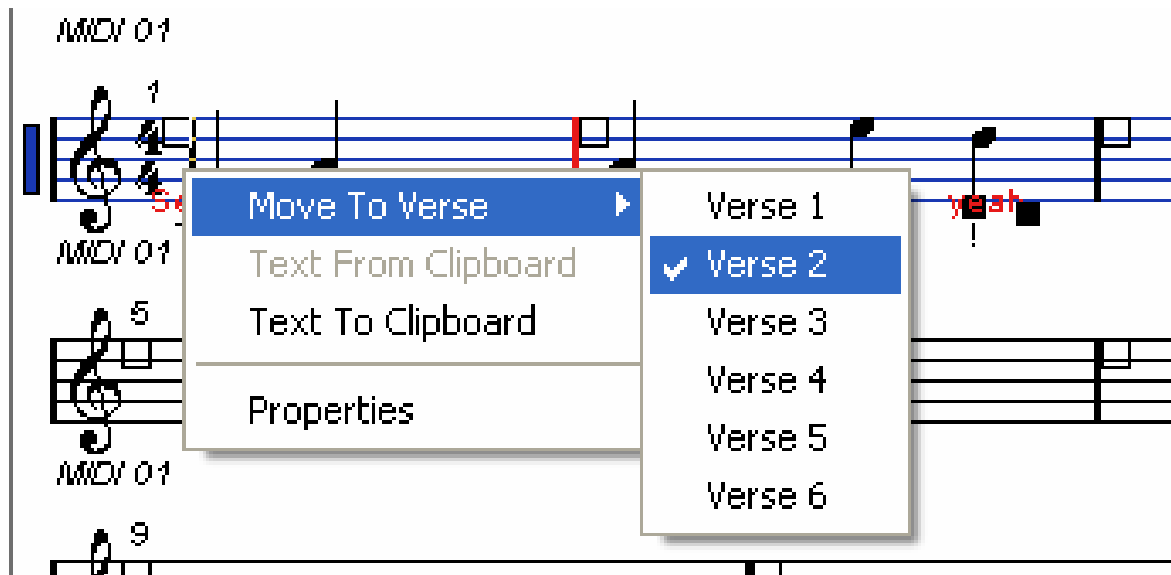

The screenshot shows a music score in 4/4 time. The top staff is labeled 'MIDI 01' and contains a melody starting with a first measure rest. Below the staff, the lyrics 'This is the first verse which rules !' are aligned with the notes. A bracket labeled 'Second' is positioned above the first measure of the lyrics. The bottom staff is a piano accompaniment with a fifth measure rest.

2. Select all the words that should be in the new verse.

The screenshot shows the same music score as above. A second line of lyrics, 'Second Verse Same as the First Oh yeah', is added above the first line of lyrics. A red vertical line is placed at the end of the first measure of the new lyrics. The piano accompaniment staff remains the same.

3. Right-click the selected words to open a context menu.

4. Select the appropriate verse from the Move to Verse submenu (Verse 1–6).

This assigns the selected lyrics to the selected verse.

To indicate that the words belong to another verse, they are automatically displayed in another color. However, all verses will print in black as usual.

- To select all words in one verse only, press [Shift] and double click on the first word in that verse. This selects all following words in the verse.
