

Score Symbols in Cubase 4

In Cubase 4, the score symbol functions have been changed from multiple palettes to the score symbol inspector tool. As you can see the Score pull-down menu has changed greatly in Cubase 4, including the removal of the symbol palettes.

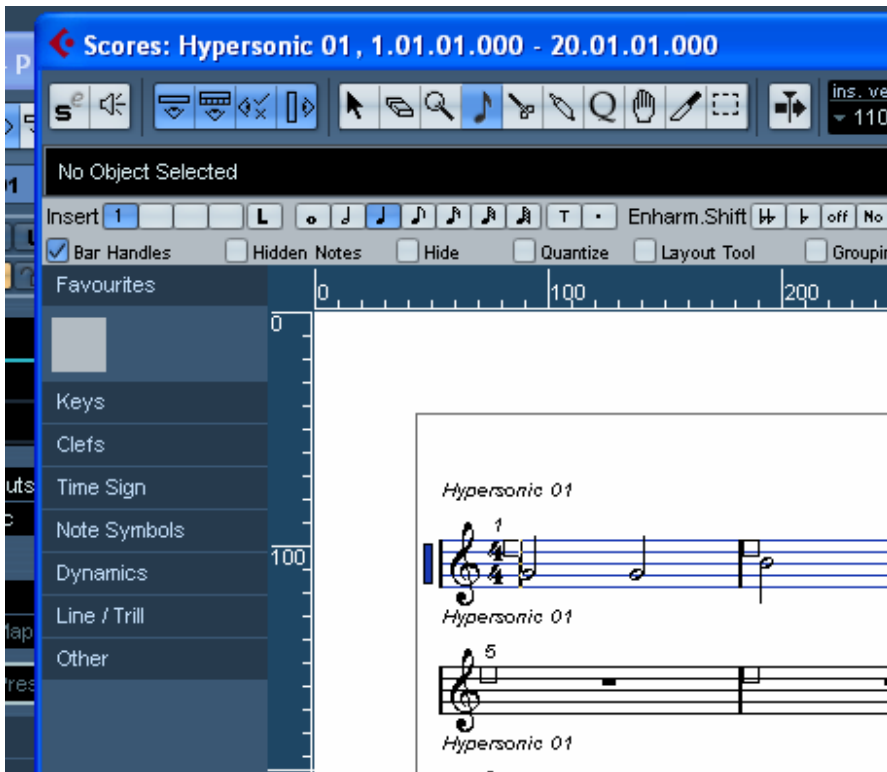

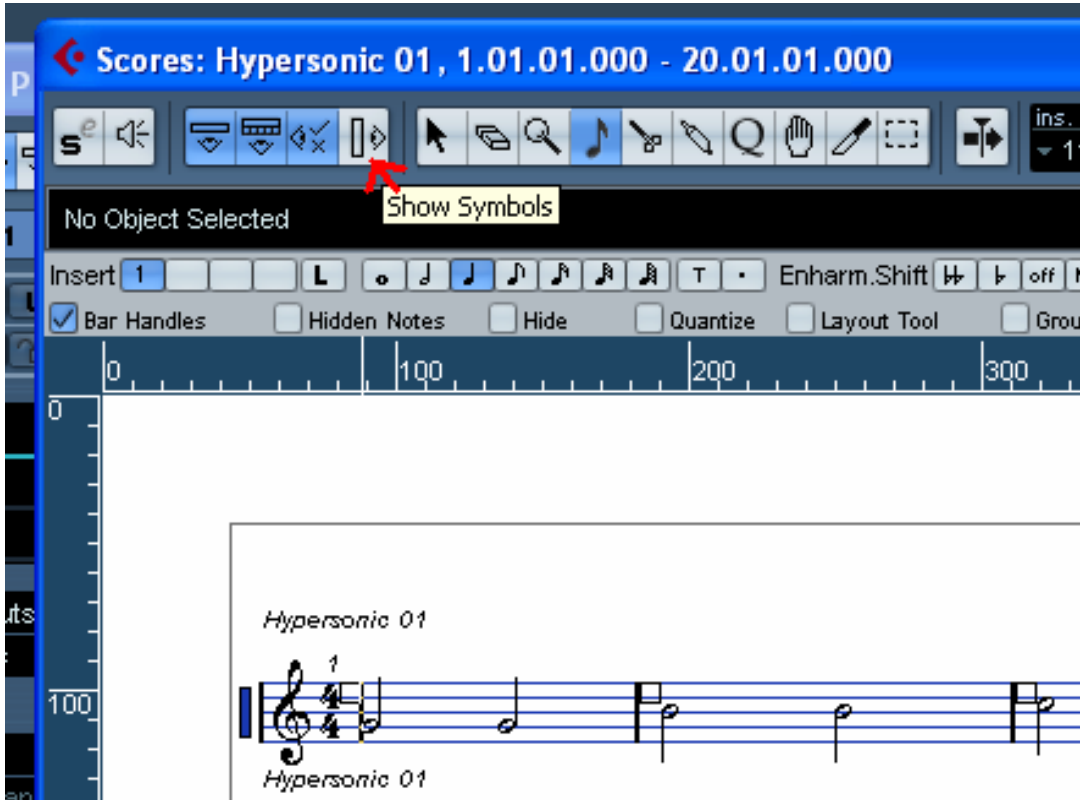

Old

New

To see your symbols in Cubase 4, select the “Show Symbols” inspector column.

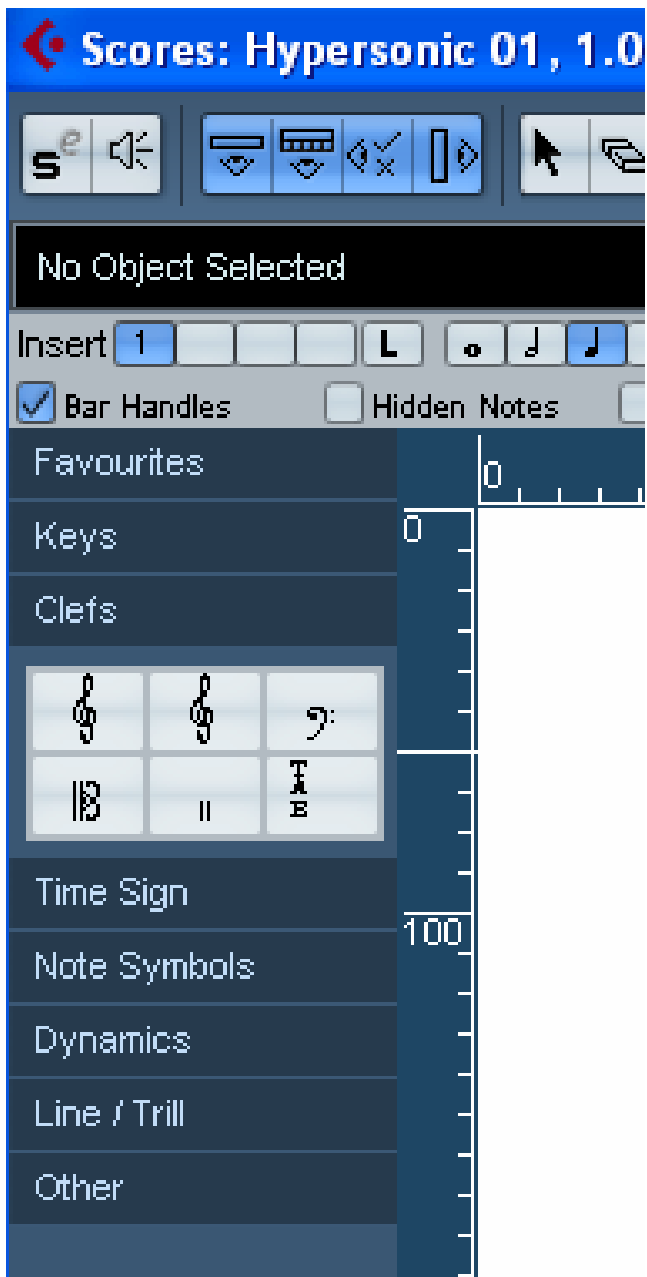

As you can see, now you have a column with:

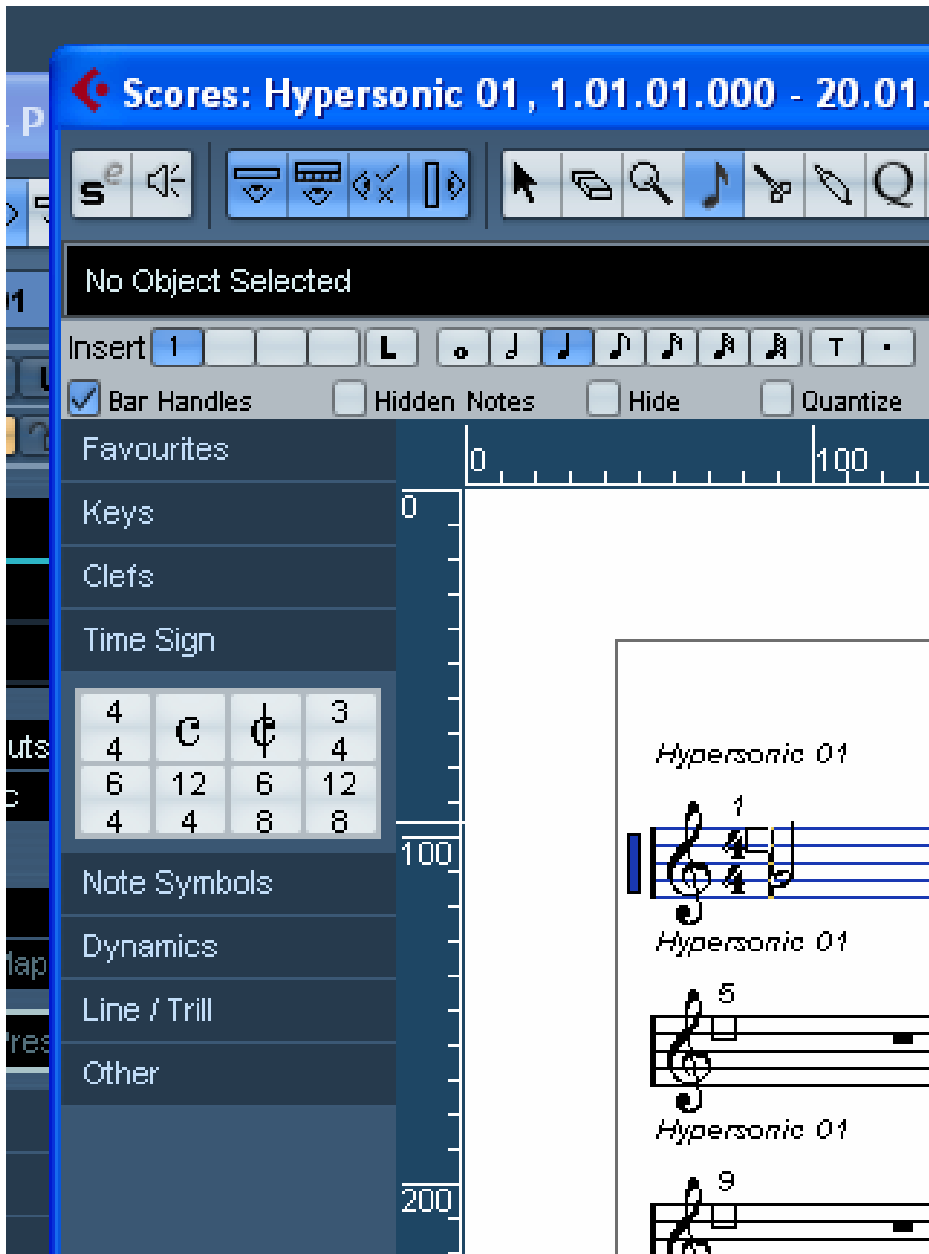

Keys – Click on the key you would like to add, and then click the measure that you want the key to begin on.

Clefs – Chooses what clef is displayed on the staff.

Time Sign – Change the time signature on a measure, and the Tempo Track will follow the changes made.

Note Symbols – These are accent symbols that can be attached to notes in the project. The symbols will follow the note if it is moved.

Scores: Hypersonic 01, 1.01.01.000 - 20.0

The image shows a screenshot of a music software interface. At the top, there is a blue header with the text "Scores: Hypersonic 01, 1.01.". Below the header is a toolbar with various icons for editing and playback. A status bar below the toolbar indicates "No Object Selected". Below the status bar is a menu with several options, including "Favourites", "Keys", "Clefs", "Time Sign", "Note Symbols", "Dynamics", "Line / Trill", and "Other". The "Other" menu is expanded, showing a grid of icons for text, lyrics, block text, and various musical symbols. A vertical ruler on the right side of the menu shows a scale from 0 to 200, with a blue bar indicating the current position at approximately 100.
